

Raise the Rate

People receiving Newstart and Youth Allowance in Tasmania

April 2018

Australia's social safety net is something most of us contribute to, and most of us benefit from, at different times in our lives. Our safety net should allow people to afford a roof over their head and put food on the table. The current rates of Newstart and Youth Allowance do not cover the cost of basic essentials.

Key statistics

Around 7.7% of working age people in Tasmania receive an unemployment or student payment.

Newstart

- 21,951 recipients of Newstart Allowance
- 76% are long-term unemployed (higher than the national average of 70%)
- Three quarters of people are paid at the single rate of the allowance
- Most people receiving the payment are aged between 35 and 64 (68%)
- 7.5% of people identify as Aboriginal or Torres Strait Islander
- Most people receiving Newstart are men.

Youth Allowance

- There are 3,469 recipients of Youth Allowance (Other) (unemployment payment for young people aged 16-21)
- There are 4,571 recipients of Youth Allowance (student and apprentice)
- The vast majority of recipients are paid the single rate
- Most people receiving student Youth Allowance are women. Most people receiving Youth Allowance (Other) are men.
